

AH-C260

In-Ear Headphones

DENON

Acoustic Luxury

The AH-C260 features technologies for high-quality sound that are used in all of Denon's headphones, including the Acoustic Optimizer that achieves superior acoustic effects, Hybrid Housing made of a combination of different materials to absorb vibration, and the Radial Cascade Damper to suppress noise transmitted through the cable. The result is a beautifully clear sound that rivals the quality of high-end models. For optimum wearing comfort, the AH-C260 is ergonomically shaped to fit snugly into your ears and reduce stress, allowing you to enjoy the music care-free.

Features

New Features

- Radial Cascade Damper reduces cable transmitted vibration noise
- Acoustic Optimiser achieves optimum acoustic characteristics by adjusting the sound pressure balance in front of and behind the diaphragm
- Hybrid material driver housing for highest fidelity sound reproduction
- Ergonomic design, for a snug fit in the ear and comfortable wearing
- Dynamic sound from 9 mm Neodymium magnet driver units
- Canal-type in-ear headphone reduces external noise and lets listeners enjoy the music
- Cables of equal length for left and right channels, to maximise sound quality
- 1.3 m OFC cable
- Comes with cable clip to keep the cable from tangling or fluttering in the wind
- Branch point adjustment function with slider, to take up slack in cables between the branch point and ear pieces
- Gold-plated stereo mini-jack
- Includes convenient cable holder to store the cable while on the go
- Includes XS size earpiece that fits comfortably in extra-small ears
