

1638 **FLYTE**

Linear double pulley with stainless steel wheels.
Sealed ball bearings for low friction and increased speed.
Specifically conceived for crossing cables and zip lines.
Accommodates ropes up to 13 mm and steel cables up to 12 mm in diameter.

Working load limit: 10 kN
Breaking load: 25 kN

CE EN 12278

TEAM RESCUE ROPE ACCESS TREE CLIMBING

Aluminium alloy main structure

Additional attachment hole
Able to contain one connector

Stainless steel wheels
Sealed ball bearings movement

Aeration holes

Large attachment holes
Able to contain two connectors
